Our water system violated State drinking water requirements. Even though these were not emergencies, you, as our customers, have a right to know what happened and what we did to correct the situation.

*We are required to comply with State drinking requirements on a regular basis. During 10/1/2020 to 10/31/2020, we did not submit a monthly operational report or we did not submit sufficient chlorine residual readings.*

**What should I do?**

There is nothing you need to do at this time.

The table below lists the violation and the compliance period when the violation occurred.

| <b>Violation</b>  | <b>Compliance Period</b> |
|---|--------------------------|
| WB, CHLORINE, MOR NOT SUBMITTED<br>MOR INCOMPLETE or CHLORINE MISSING<br>FROM COLIFORM RESULT | 10/1/2020 to 10/31/2020  |

**What happened? What is being done?** (Describe corrective action)

*The Monthly Operational Report (MOR) was filled out and the daily Chlorine checks were collected. However, the PWSID number which identifies the different water systems was recorded incorrectly. The problem was corrected on the following months MOR.*
